METRICS

This section allows you to select the activity and outcome metrics you will use to measure your project's progress and success. Follow the directions provided in Easygrants to complete this section. A couple of pointers:

- A list of metrics associated with this program will be presented.
- Hover your mouse cursor over the “?” next to a metric to read its description and specific guidance.
- Please “Add” and complete at least one metric relevant to reporting your project's progress.
- For each metric you will need to provide values for “Starting Value” and “Target Value”. In most cases the starting value will be zero (0).
- In your project narrative, you will have the opportunity to describe additional activities and outcomes associated with your project.

BUDGET

Please refer to the [Detailed Budget Instructions](#) sheet in order to accurately complete a budget for this project.

Note: The “Requested Amount” must match your budget total exactly. The budget should only represent the grant amount being requested from NFWF; it should not include matching funds or represent the overall budget for the project.

Indirect Costs: If you intend to include indirect costs in your budget, please review NFWF's [Indirect Cost Policy](#).

MATCHING CONTRIBUTIONS

Matching funds of at least 1:1 in non-U.S. federal funds will be required.

Click the “Add” button to add sources of matching contributions, and list each source of matching contributions separately in the space provided. Matching consists of the portion of project costs not paid with NFWF funds and may be in the form of cash, in-kind contributions and/or donations. Matching must meet all of the following criteria:

Non-federal Match:

- Verifiable from the grantee's records
- Not included as contributions for any other award
- Necessary and reasonable for accomplishment of project or program objectives
- Are allowable costs based on the program and funding source guidelines
- Committed directly to the project and must be used within the period of performance

Federal Match:

- Verifiable from the grantee's records
- Not included as contributions for any other Federal award
- Necessary and reasonable for accomplishment of project or program objectives
- Not paid by the Federal government under another Federal award except when authorized by Federal statute (if applicable)
- Are allowable under OMB Cost Principles
- Committed directly to the project and must be used within the period of performance

PERMITS and APPROVALS

If permits and/or approvals are required for this project, click the “Add” button to provide details for each permit and/or approval. Include extra information in the description section as necessary (e.g., pre-permit meeting held on Jan. 1, 2013, etc.).

REVIEW and SUBMIT

When you are ready to submit, each section of your proposal should be indicated “Complete” with a green check mark (✓) in the “Status” column. If any section is indicated “Incomplete” with a red (✗), you will not be able to submit and must go back and check your work in each section that is “Incomplete”. The Validation Status section on the Review and Submit page explains why the system indicates a section is “Incomplete”.

To view and save your proposal you may click on the “View PDF” button. This function creates a composite file with all of the fields and substantive uploads, which you may then save as a stand-alone document. Please note that some of the financial documentation will be excluded from the composite file, but will be received by NFWF upon submission. Once you have reviewed your proposal for accuracy, click the “Submit” button to officially submit your proposal. Upon submission, you will receive a confirmation email from Easygrants@nfwf.org.

ADDITIONAL EASYGRANTS QUESTIONS

In addition to the Frequently Asked Easygrants Questions outlined in the Pre-Proposal portion of this document, the following are questions specific to full proposals.

I completed the application and it will not submit. Why not?

If you are unable to submit your application, go to the Review and Submit form in the application. If any section is indicated "Incomplete" with a red (X), there will also be an explanation as to why the system indicates the section is "Incomplete". You must go back and check your work in each section that is "Incomplete". Below are two examples that frequently prevent submission:

- 1) Check the section of the Easygrants online application "Requested Amount" to see if it matches your budget total. The amounts must match **exactly** (down to the cent) for you to be able to submit a proposal. Please edit your Requested Amount if needed.
- 2) Do not complete sections of the budget where you have no costs. If you entered "0" for any budget line items, delete those line items. Placing a "0" in these line items will prevent you from submitting a proposal.
