  - Fish and Wildlife Service Migratory Birds Program
  - Salesforce

# Program Overview

---

- Applicants submit one proposal for all sources of funding.
- **Geographic Focus and Funding Availability**
  - Approx. \$1,600,000 available nationwide for projects meeting program priorities
  - Geographic focus varies depending on funding partner priorities (RFP lists geographies)

# Application Review Process

**Applicant Submits Proposal**

NFWF Screens Proposal and Assigns for Review for All Applicable Funding

Reviewers from NFWF and Program Partners Review Application

Review Team finalizes all selections for grants (about 10-15%)

NFWF notifies Congress of each award. The NFWF Board of Directors approves all grants under this program.

**NFWF notifies applicants of awards or declines to award a proposal.**

# Program Priorities

---

- **On-the-Ground Restoration**
- Restore and/or create wetlands, coastal or riparian areas
- Address key species and habitats
- Link directly to established watershed and conservation plans
- Design and/or implement green infrastructure
- Collect and analyze local water samples
- Develop/implement trash and litter prevention programs

# Program Priorities

---

- **Environmental Outreach, Education, and Training**
  - Integrate meaningful outreach, education and/or training
  - Engage the public in conservation experiences in public areas
  - Establish or advance a community science or water quality monitoring program
  - Improve citizen understanding of trash and litter impacts

# Program Priorities

---

- **Partnerships**
- Must involve five or more partners (public and private entities) including the applicant
- Directly engage a diverse group of community partners to achieve specific ecological and educational outcomes
- Demonstrate that the project will advance existing local watershed or conservation plans or coordinate a partnership that develops and implements new plans and projects

# Program Priorities

---

- **Measurable Results**
  - Specific, measurable ecological, educational and community benefits
  - Identify measurable activities and metrics which clearly link to watershed and community outcomes
  - High level of community engagement

# Program Priorities

## Sustainability

- Include a plan for maintenance and care of the project beyond the grant period
- Reflect a commitment to community strength and long-term capacity
- Address any priority and/or at-risk species, habitats or conservation actions
- Directly connect outcomes to community benefits of watershed restoration

# Questions?

# Project Title, Description and Abstract

## Project Title

Short, descriptive name that distinguishes your project  
Include the state abbreviation at the end of the title  
Don't call your project "Five Star & Urban Waters Project"

Example: "Whatcom Stream Stewards Program: Engaging Community in Restoration, Education and Stewardship (WA)"

## Project Description

Two sentence description  
First sentence: state the main activity/method being used to address a specific species/habitat and location  
Second sentence: expected outcome and main metrics that will be completed from the investment and relevance to conservation

Example: Restore 15 acres of riparian habitat to improve water quality and habitat for chinook salmon, bull trout and steelhead salmon in Puget Sound. Project will engage 5 local resource management partners and 2,500 volunteers to plant 5,000 trees and remove 6 acres of invasive vegetation.

# Project Title, Description and Abstract

- **Project Abstract**

- Expands upon the Project Description
- List the project partners, grant deliverables, major activities/outcomes (including both on-the-ground and outreach) and project location.

- Example: Nooksack Salmon Enhancement Association will restore 15 acres of riparian habitat to improve water quality and habitat for chinook salmon, bull trout and steelhead salmon in Puget Sound. The grantee and partners will engage 5 local resource management partners and 2,500 volunteers to plant 5,000 trees and remove 6 acres of invasive vegetation. Project partners include The Lummi Nation Natural Resources Department, The Whatcom Land Trust, City of Bellingham Parks and Recreation Department, Western Washington University, American Forests and others.

# Mapping the Project Location

- Use the full proposal mapping tool to draw your project location or upload a shapefile
- Map the location(s) where on-the-ground project work will occur
- Be as specific as possible!
- You should not select an entire state or county as your project location unless your project spans the entire region

# Metrics

- Load program metrics using the “Five Star Metrics” template from drop down menu.
- Select all outcomes that apply to your project.
- Include at least one metric for “habitat restoration” and at least one metric for “capacity, outreach, incentives.”
- Each metric’s “target value” should always be greater than the “starting value.” **Most starting values SHOULD BE 0.00**
  - **If none of the available metrics apply to your project, please contact NFWF to discuss**

# Budget

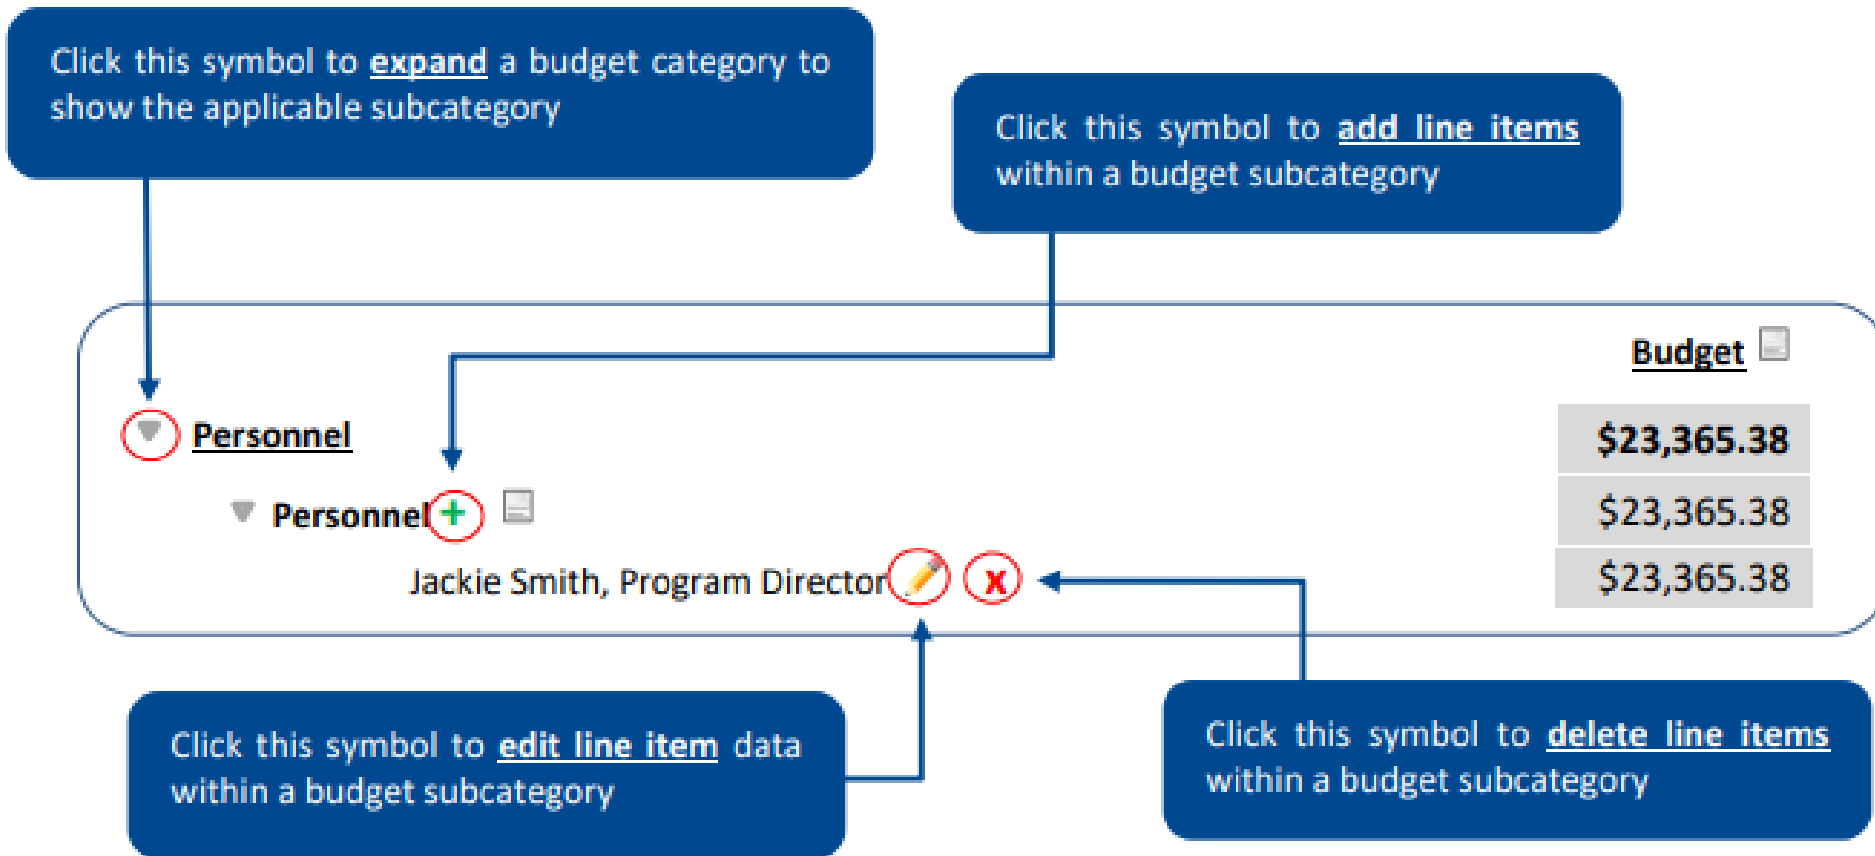

- Use the green plus sign to add line items to the budget
- Use the pencil to edit line items in the budget
- Use the 'notes' feature to add a narrative description for each section of the budget
