

Technical Assistance for Watershed Projects: National Fish and Wildlife Foundation Offers Field Liaison Support

The National Fish and Wildlife Foundation (NFWF), the U.S. Environmental Protection Agency (EPA), and the U.S. Fish and Wildlife Service (USFWS) make grants to organizations through the Chesapeake Bay Stewardship Fund to advance restoration and protection of the six-state Chesapeake Bay watershed. For more information about NFWF's Chesapeake Bay Stewardship Fund and grant programs, visit [our website](#).

In addition to grant funding, NFWF offers complimentary **technical assistance through field liaisons that support local governments and organizations** interested in pursuing watershed restoration and protection projects through NFWF Stewardship Fund grants. Field liaisons work external to NFWF and **provide project consultation and watershed management expertise** to assist and support grant applicants and current grantees.

Technical Assistance Available

NFWF-contracted **field liaisons** are available to assist partners, including prospective applicants to:

- Explore local project needs and opportunities for connections with NFWF programs;
- Enhance project alignment with NFWF, EPA, USFWS, and the Chesapeake Bay Program priorities;
- Identify and develop appropriate and right-sized project and landscape-level partnerships;
- Survey and explore technical and financial resources to leverage potential grant funding; and
- Transfer insights and lessons learned from legacy NFWF projects to maximize project outcomes.

Field liaisons provide broad geographic coverage across the Bay region and offer a breadth of experience and expertise in agricultural conservation, urban stormwater management, wetland and watershed science, and habitat restoration relevant to Bay restoration goals.

To access field liaison support, contact individual liaisons directly:

Field Liaison Contact	Email	Phone	Expertise
Kristen Saacke Blunk	kristen@headwaters-llc.org	(814) 360-9766	Watershed, stream, and wetland restoration and protection, land protection
Sarah Clark	sarah@icl.org	(240) 472-1772	Collaboration and partnership development
Kristen Hughes Evans	kristen@susches.org	(804) 554-3403	Agriculture, collaborative project development
David Hirschman	dave@hirschmanwater.com	(434) 409-0993	Stormwater, green infrastructure, stream corridor restoration.
Katie Ombalski	katie@woodswaters.com	(814) 574-7281	Watershed restoration, agriculture, forest and aquatic habitat restoration, and land conservation
Mariah Davis	davisstrategies1@gmail.com	(757) 291-8785	Community Engagement, Urban and Suburban Stormwater, Urban and Suburban Agriculture
Bryan Hofmann	bryan.hofmann@riverfriends.org	(540) 693-0443	Green Infrastructure, Forestry, Living Shorelines, Stream Restoration, Education, Collaborative project development

Unsure who might be the best fit? NFWF can help! Simply email Tori Sullens (tori.sullens@nfwf.org) or Oleksandr Faryga (oleksandr.faryga@nfwf.org) with “Field Liaison Request” in the subject line and provide a brief summary of the specific project or initiative for which you seek assistance.
